MUTOH

VJ-1638UR Mark II
New print modes and industry leading features

i² Intelligent Interweaving UV drastically reduces banding and gloss banding effects

Mutoh cool UV cure technology delivers low energy consumption and instant dry output

Automatically adjusts the drop throw distance, regardless of the thickness of the media loaded

Mutoh VerteLith™ Clear Tone screening will produce the best possible gradients and skin tones

US11 inks are GREENGUARD Gold certified for indoor applications including offices, classrooms and healthcare environments

US11 inks are compliant with the European Standard on safety of toys EN 71-3 – part 3.

Low odour, non HAP inks - no air purifier needed. Fit for any working environment and interior décor prints

VJ-1638UR Mark II
VerteLith™ RIP software

A complete 'in the box' print solution with advanced 6-channel support.

- Multi-layer artwork requiring white and/or varnish layers
- Fast RIP processing times for both PDF and PostScript Files
- Perfect handling of transparencies and spot colours
- Powerful preview functionality
- Mutoh VerteLith™ 'Clear Tone' will produce the best possible gradients and skin tones
- Auto-generate white and/or varnish layers based on a selection of presets
- Ink-cost calculation prior to printing
- Finishing toolset (flexible tiling, crop marks or grommets)

MUTOH
